

ULTRA ROD<sup>®</sup> PLUS<sup>™</sup>

TORQUE ROD BONDED

BUSHINGS LAST LONGER

THAN CONVENTIONAL

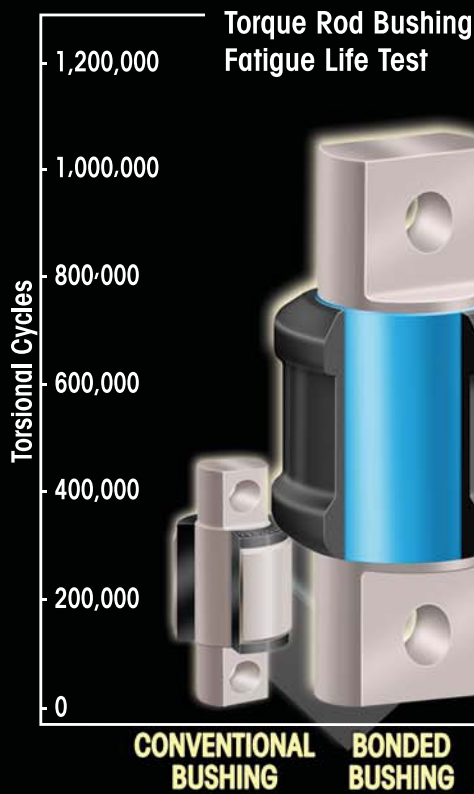

TORQUE ROD BUSHINGS

**ULTRA ROD<sup>®</sup> PLUS<sup>™</sup> Torque Rod Bonded Bushing Provides Longer Life**

Bonding makes a better bushing. In a conventional torque rod bushing, suspension stresses cause the rubber bushing to rotate against the inner metal, creating friction and heat that can contribute to the rubber deterioration.

Hendrickson's bonded bushings use chemical bonding to interlink the molecules of the inner metal and the rubber bushing to eliminate movement. By eliminating friction-generated heat, the bonded bushing stays intact longer enhancing suspension integrity. Rebushing is faster and easier because the bonded bushing has no outer metal collar.

Conventional bushings use outer metal sleeves to compress rubber bushings onto the inner metal. Hendrickson's bonded bushing molecularly bonds the rubber bushing to a metal shaft creating a stronger more robust bushing.

Laboratory tests prove that the new Hendrickson ULTRA ROD PLUS torque rod bonded bushing\* lasts longer than conventional torque rod cartridge bushings. Use Hendrickson's improved technology and experience the bonded bushing difference.

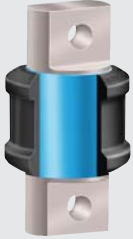

\*Bushings tested for end hubs 2.75" ID x 2.2" Wide

# ULTRA ROD® PLUS™ Torque Rods and Replacement Bushings

**NOW AVAILABLE**

## New ULTRA ROD PLUS Bonded Bushings

Bonded bushings have greater life expectancy and are interchangeable with most conventional Hendrickson bushings.

Rebushing a torque rod with a bonded bushing is now easier with the use of a new

funnel tool. Contact your authorized

Hendrickson distributor to order the **Funnel Tool**.  
**Part No. 66086-000**

**Promotional Kit No. 34013-113**

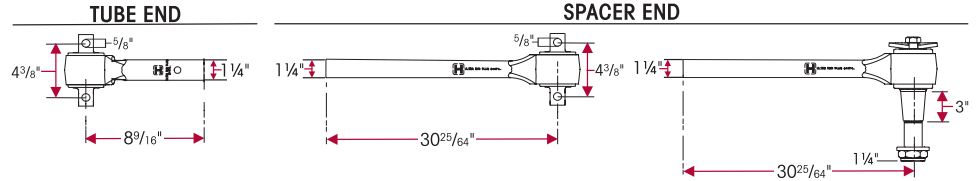

includes

**Eight Bonded Bushings**

(Part No. 64400-002L)

**One Funnel Tool**

(Part No. 66086-000)

**Tube End**  
w/ Bonded Bushing (64400-002L)  
Part No. **46610-001**  
w/o Bushing Part No. **64473-000**

**Spacer End**  
w/ Bonded Bushing (64400-002L)  
Part No. **46661-001**  
w/o Bushing Part No. **64474-000**

**Spacer End**  
w/ Bonded Bushing (64400-004L)  
Part No. **46681-001**  
w/o Bushing Part No. **64474-000**

## ULTRA ROD® PLUS™ two-piece torque rods pre-assembled with bushings

Hendrickson offers two-piece torque rod assemblies in the most popular configurations. ULTRA ROD PLUS assemblies utilize bonded bushings for greater life expectancy.

**Hendrickson ULTRA ROD PLUS two-piece torque rods** deliver all the benefits of the ULTRA ROD, but they also offer added versatility by featuring empty end hubs. Empty end hubs allow the use of various bushing configurations from the existing Hendrickson torque rod bushing offering. The two-piece design requires stocking only two part numbers, eliminating multiple torque rod inventories to help manage fewer part numbers and increased inventory turns. Reference the chart below to identify which Hendrickson torque rod bushings can be used with ULTRA ROD PLUS.

BONDED BUSHINGS					CONVENTIONAL BUSHINGS				
	PART NO.	"A"	"B"	"C"	PART NO.	"A"	"B"	"C"
